COMMENTS OF OAKLAND COUNTY, MICHIGAN

Summary:

It is the position of Oakland County, Michigan that right of way regulation and management must remain a local government function. The purpose of the local right of way management process is to protect public safety and confirm that the location of the facilities will not block other utilities. Local governments are the only level of government that can efficiently ensure that regulations are applicable to and enforced within their communities. While broadband is just as important as other critical infrastructure, it should be given no federal preference in the use of the right-of-way over other public utilities such as water, sewer, and electricity.

That being said, process enhancements should be explored. Oakland County would suggest forming a multi-jurisdictional committee consisting of local and federal government representatives, as well as the private sector. The role of this committee would be to assist with identifying issues and developing and promoting recommendations that may be optionally incorporated into local right of way management practices.

In response to Section 3.A.35:

In addition, we ask interested persons to submit information on instances in which government entities and industry have worked together in a positive manner to foster broadband deployment, and describe the factors or circumstances that led to such constructive collaboration.

In collaboration with local units of government, Oakland County developed an Intergovernmental agreement that standardized the contractual terms and lease arrangement for a private sector partner to collocate on any County or locally owned assets. The template agreement has been attached to these comments. It should be noted that Oakland County recognizes the importance of local review of any infrastructure that would be located in a community and even through this arrangement, a private sector partner would be required to adhere to all local right of way and zoning laws.

**WIRELESS OAKLAND AGREEMENT
BETWEEN
OAKLAND COUNTY
AND
[NAME OF MUNICIPALITY]**

This Agreement ("the Agreement") is made between Oakland County, a Constitutional and Municipal Corporation, 1200 North Telegraph, Pontiac, Michigan 48341 ("County"), and the [Name and Address of Municipality] ("Municipality"). In this Agreement the County and the Municipality may also be referred to individually as "Party" or jointly as "Parties."

PURPOSE OF AGREEMENT. Pursuant to the Urban Cooperation Act of 1967, 1967 PA 7, MCL 124.501, *et seq.*, the County and the Municipality enter into this Agreement for the purpose of delineating the relationship and responsibilities between the County and the Municipality regarding the Wireless Oakland Initiative. The Wireless Oakland Initiative has the following three goals: (1) Blanket the County with wireless internet service; (2) Address the County's "digital-divide" and provide low-cost or no-cost personal computers and technology training to underserved population groups; and (3) Develop a Telecommunication and Technology Planning Toolkit to support continued high-tech investments in local government and promote integration of those investments with local community character and quality of life. Citizens, business entities, and governmental entities will all benefit from this wireless internet service. The citizens of the County will be more prepared to fill high-tech jobs; business entities will be better prepared to compete in the global market; and governmental entities, including Oakland County and the Municipality, will realize increased efficiencies when providing services to their citizens.

Neither the County nor the Municipality will own or operate the wireless internet service. Instead, the County will collect and pool public assets located throughout the County to license to the owner/operator of the wireless internet service in exchange for free wireless internet access at a certain bandwidth. The County will license the use of the collected assets to the owner/operator on a non-exclusive, non-interfering basis. The owner/operator shall not have any permanent or exclusive rights to these public assets.

No waiver of any term, condition, or provision of this License, whether by conduct or otherwise, in one or more instances, shall be deemed or construed as a continuing waiver of any term, condition, or provision of this License. The numbers, captions, and indexes shall not be interpreted or be considered as part of this License.
